DETAILED ACTION

Information Disclosure Statement

1. The information disclosure statement (IDS) submitted on 06/27/2007 was filed after the mailing date of the Notice of Allowance on 03/27/2007. The submission is in compliance with the provisions of 37 CFR 1.97. Accordingly, the information disclosure statement is being considered by the examiner.

Allowable Subject Matter

2. Claims 1, 3-30, and 32 are allowed.

3. The following is an examiner's statement of reasons for allowance:

The present application teaches system and method for coordinating the use of beam forming between a base station and a WTRU comprising selecting one of the base station and the WTRU for reduction of the amount in which the selected base station or WTRU will adjust its beam in response to misalignment between beams emanating from the base station and the WTRU; measuring an error in the alignment and determining a correction factor based on the measured error and adjusting the beam of the selected base station or WTRU using a selected adjustment parameter in accordance with the correction factor, whereby the beams emanating from the base station and the WTRU are aligned with respect to each other.

The closest prior art to the present application such as Etkin et al. teaches two beams from two communicating entities, but just an effect of beam sweeping by the base station. Etkin fails to disclose a scheme of measuring an error in alignment of two beams emanating from two communication entities, determining a correction factor based on the measured error, and

readjusting the beams to realign the two beams. Etkin two communicating entities do not communicate during the initial state before forming operation and throughout the communication process. Etkin entities do not know whether the other is adjusting a beam direction for fixing the misalignment of the two beams.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Note: This Examiner's reason for allowance was disclosed in the previous Office Action (i.e., Notice Of Allowance) together with an Examiner's amendment. Please refer to Previous Office action accordingly.
